

## Additional Mold Compound Qualification for Automotive BGA Packages

XCN08017 (v1.1) July 7, 2008

Product Change Notice

### Overview

The purpose of this notification is to announce the qualification of an additional mold compound for selected wire bond BGA packages. There is no change to the fit, form, function, or reliability with this change.

### Description

Nitto GE100 series mold compound has been qualified as a primary source for Xilinx plastic molded wirebond BGA packages for automotive markets. Xilinx will maintain its previously qualified mold compound as a second source in order to maintain supply continuity for critical markets.

### Products Affected

Table 1 summarizes the Automotive devices/packages affected by this PCN, which includes all related speeds and grades.
